

Daniel Díaz Quílez

daniel.diaz@helsinki.fi | [GitHub](#) | [LinkedIn](#) | [Personal Website](#) | Helsinki, Finland

Languages: Spanish (native), English (fluent)

Education

PhD in Symbolic AI

TU Wien, Austria

Aug 2026 – Present

- Advisors: Zeynep G. Saribatur, Nysret Musliu, and Thomas Eiter.

MSc in Mathematics and Statistics

University of Helsinki, Finland

Sept 2024 – May 2026

- Thesis: [Simple Geometry without Coordinates](#) (Model Theory). Advisor: Tapani Hyttinen.

BSc in Mathematics and Computer Science

Universidad Politécnica de Madrid, Spain

Sept 2018 – June 2022

- Thesis: [Projective and Plane Curves](#) (Algebraic Geometry). Advisor: Alfonso Zamora.

BSc Exchange Year — Machine Learning, Systems, and Control

Lund University, Sweden

Aug 2021 – June 2022

- Final project: [Predicting a Subject's Card with the Muse-S headband](#).

Publications

- D. Díaz Quílez, T. Lehtonen. [Abductive Explanations for Groups of Similar Samples](#). *Preprint*, 2026.
- M. Klang, D. Díaz Quílez, D. Medved, P. Nugues, J. Nilsson. [Using Operative Reports to Predict Heart Transplantation Survival](#). *IEEE Engineering in Medicine & Biology Society (EMBC)*, 2022.

Academic Experience

Research Assistant — Logic and Machine Learning

Aalto University, Finland

May 2025 – Sept 2025

- Researching SAT-based explanations for neural networks (preprint above). Advisor: Tuomo Lehtonen.

Teaching Assistant

University of Helsinki, Finland

Jan 2025 – May 2026

- Basics of Mathematics in Machine Learning I.
- Basics of Mathematics in Machine Learning II (two iterations; gave two lectures).
- Computer & Internet (two iterations).

Professional Experience

Machine Learning Engineer

Trado Capital, Finland

May 2025 – Aug 2025

- Led a two-person team building a Python ML pipeline (primarily gradient boosting) to identify real estate investment opportunities in Finland.

Robotics Software Engineer

eProxima, Spain

Aug 2023 – Aug 2024

- C++ contributor to [Fast-DDS](#), the default open-source middleware for ROS 2.
